

Waterproof Pigtail

Description

Water-proof Pigtail is generally used in the severe field environment, so it greatly depends on the components' reliability. We employ the advanced technique and production equipment to ensure its good performance and environmental stability. Various types are available for customers, including Simplex, Duplex and 4 cores...etc.

Features

High Performance
High Tensile Strength; Anti-etched
Waterproof and Anti-corrosive
Easily Installed

Applications

Optic-fiber Communication Systems
Optic-fiber CATV
Connecting between Backbone Optical Cable and Receiver

Specifications

Item	FC/APC	SC/APC
Insertion Loss (dB)	≤0.30	
Repeatability (dB)	≤0.10	
Exchangeability (dB)	≤0.20	
Return Loss (dB)	≥60	
Fiber Type	Corning SMF-28TM, 9/125um	
Operating Temperature °C	-25~+70	
Storage Temperature °C	-40~+85	
Industry Standard	Telcordia GR-326-CORE
